Food queues have now become common in London, and this photograph shows a good natured crowd waiting turn to buy. At the right of the picture are members of the American Food Commission sent over by Herbert S. Hoover, to investigate food conditions in London.

First Census Now Taken In Turkey

AMSTERDAM, Jan. 30.—For the first time in the history of Turkey a complete census of the whole empire is to be taken. A German statistician has been appointed to superintend the preliminary formalities. The Turkish newspaper Sabah says: "We are the only nation in Europe, not excluding even the Balkan states, which possesses no official statistics of our population. The estimated population of Turkey before the war was roughly 21,000,000, of which 7,000,000 were Turks, 9,000,000 Arabs, 1,500,000 Armenians, 1,500,000 Greeks, 1,500,000 Kurds, and the remainder Druses, Jews and the smaller tribes. The Turkish newspapers have recently shown some anxiety as to the large decrease in population lately, caused by the war and the prevalence of disease, and have urged the government to take steps to decrease mortality and increase the birth rate."

Fires Here By Enemy Cause Terrific Loss

WASHINGTON, D. C., Jan. 30.—"In the nine months of war, enemy incendiaries have destroyed \$50,000,000 worth of property in this country. This includes munition factories, grain elevators, stock yards, oil property, marine property and other industries vital to war efficiency." This statement was made Sunday by Richard M. Hurd, chairman of the board of trustees of the American Defense Society, who announced that the society had asked for a hearing to oppose the application of certain fire insurance companies in neutral countries of Europe to do business in the United States. The society says it has evidence that disguised enemy insurance companies are obtaining information of great value to Germany, and transmitting it to that country. Secretary McAdoo recently deprived several alien companies of the right to do business in this country, at the instance of the society, but it is said the concerns have found ways of circumventing the prohibitions. For instance, the society reports that since the dissolution of the enemy companies in this country, six new insurance companies, capitalized at \$6,000,000, have been organized in Norway with the probability that their capital is largely German money. These companies are licensed in the United States and, according to Mr. Hurd, have access thru state and national boards of fire underwriters to information of great value.

One state board, the society points out, informs these companies that at a specified pier of a specified railroad (the name being given in all cases), there are daily four carloads of dynamite and each week (the day being specified) a carload of small arms ammunition. Another reports that

Pain

Here is a message to suffering women, from Mrs. Kathryn Edwards, of R. F. D. 4, Washington Court House, Ohio. "I am glad to tell, and have told many women, what I suffered before I knew of Cardui, and the great benefit to be derived from this remedy. A few years ago I became practically helpless."

TAKE

Cardui

The Woman's Tonic

"I was very weak," Mrs. Edwards goes on to say, "and could not stoop without suffering great pain. Nothing seemed to help me until I heard of Cardui and began the use of it. I gradually gained my strength. I am now able to do all my work. If you need a tonic take Cardui. It is for women. It acts gently and reliably and will probably help you as it helped this lady."

Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make out stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well. What a glorious condition to attain, and yet, how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, spitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices in the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a reformed crank on the subject of inside bathing before breakfast.—Adv.
